JURY REPORT

GLOBAL BEST PRACTICES AWARDS PROGRAM 2026

Ophemert, November 5th, 2026

Global Best Practice Awards
The results in this document are based on the received jury forms, filled out by the CINET GBPA26 International Jury. The jury is an independent body, consisting of reputed personalities in the textile care sector consisting of specialized journalists, independent analysts and consultants, experts of research institutes, institutions and associations.

The CINET Global Best Practices Awards 2026 provided a perfect reference case, showcasing the latest standards of excellence in advanced and modern professional textile care worldwide. The event functioned as a platform to highlight the best practices and demonstrating the industry's capabilities and focus on a high standard of quality, new business services, innovation and sustainability.

Businesses were evaluated by the jury with max. 20 points per criterium.

These criteria were:

1. Quality	20 points
2. Sustainability	20 points
3. Business model & Service concept	20 points
4. Innovation	20 points
5. Keynote	20 points
----------	----------
Total max. 100 points	

49 Official Nominations certificates were presented: in 4 categories:

A. Retail Textile Cleaning SME
B. Retail Textile Cleaning Big
C. Laundromats
D. Industrial Textile Services

The companies were contesting for 3 Awards per category:
1. Best Overall Award
2. Innovation Award
3. Sustainability Award

Evaluation of some 80 Nominations by the International Pré-selection Committee

The GBPA26 evaluation was organized following the Procedure CINET Global Best Practices Awards Program 2026 of which a summary is enclosed.

The registered nominations were evaluated upon the set criteria by an international pre-selection jury committee checking the delivered materials; text, photos, documentation and other testimonials. Upon unanimous decision a list of some 49 accepted official nominations was agreed upon.

The list of 49 accepted Official Nominations was evaluated on the set criteria once again and judged for a second time. The points were given accordingly. The points were given individually and mounted up afterwards. The 49 highest scores were discussed. After extensive discussions the first ranking of the best 49 nominations was determined. These were invited to do a Pitch presentation as Finalists per category.

Evaluation Finalists by the International Jury

The top 49 nominations agreed to do a pitch presentation of max. 3 minutes at the CINET Global Best Practices Award Program for evaluation by the International Jury. Each expert received the documentation of each finalist approximately 10 days in advance for evaluation.

After the pitch presentations the jury members scored 1-20 points on the set criteria, accumulating to a maximum of 100 points total. The evaluation was done live via smartphone, where scoring sheets were made available from the beginning of the pitch presentations till 3 minutes after the presentations. The pré-selection score and the Pitch score were balanced for the final score. The scores were processed via dedicated software and immediately made available to the chairman of the jury.

To check the validity of the evaluation also a Jury de-briefing was organized under guidance of the Jury Chairman.

The evaluation via software / smartphone proved to be more efficient and more stable than the methodology applied before. However, the technical briefing of the jury relative to the software and smartphone handling should be more focussed to gain efficiency.

Best Overall Awards 2026

This award is presented to the entrepreneurial companies in RTC/Laundromats/ITS, because of their advanced business models and services to customers with extraordinary marketing materials and their ability to develop new markets and business areas.

The Overall Award Category RTC A (SME) was received by The Laundry Concierge, India, because of their innovative business model, sustainability, quality and services.

The Overall Award Category RTC B (BIG) was granted to Washmen, United Arabian Emirates, because of their innovative, technology driven business approach, with app driven convenience, service consistency and quality.

The Overall Award Category Laundrettes/Laundromats went to Korea Laundry – Washenjoy, South Korea, which operates highly efficient over 1,100 unattended Washenjoy and Urban Launderette stores across South Korea. Its operations combine franchise management, technical support, marketing support and remote customer service from a lean headquarter with 10 employees.

The Overall Award Category ITS was received by L.I.G. Industrial, Italy, for their outstanding textile rental business model with tailored textile solutions focussing on quality, reliability and efficiency for hospitality and food services.

Innovation Awards 2026

This award is presented to companies that are very successful presenting their high-quality service level and demonstrating their professionalism in textile care to each detail. Especially their business model for innovation was evaluated.

The Innovation Award RTC A (SME) was received by Busy Bee Gold Dry Cleaners, Canada because of their business model, which combines luxury garment care with a sophisticated, strong digital marketing strategy.

The Innovation Award RTC B (BIG) was granted to Hublo, France, awarding their AI – assisted garment care and traceability, which concentrates on photograph and video-based technologies.

The Innovation Award for Launderettes/Laundromats war given to Washin, France, for its successful combination of digital technology and customer – focused services. The Innovation Award ITS was received by Quick Clean, India. The company is operating over 120 OPLs, providing with their own Build-Own-Operate model fully managed laundry facilities especially for hotels and healthcare institutions.

Sustainability Awards 2026

The Sustainability Award is presented to companies, because of their excellent performance in Best Practices, especially sustainable processing.

The Sustainability Award RTC A (SME) was given to Synergy, India, for their initiatives to take a variety of measures to reduce the carbon footprint.

The Sustainability Award RTC B (BIG) was granted to Medoclean, The Netherlands, for their sustainability model in PTC.

The Sustainability Award Launderettes/Laundromats was gained by Acquario Lavanderie, Italy, with their focus on eco-friendly processes.

The Sustainability Award ITS was received Vendrig, Netherlands, for including coherently sustainability aspects in their business model.
